

Rony Brown

Objective:

Highly skilled Django Developer with 5 years of experience in designing and developing web applications using the Django framework. Committed to delivering robust, scalable, and efficient software solutions. Seeking a challenging role where I can utilize my technical expertise and contribute to the success of innovative projects.

Education:

Bachelor of science in computer science

Skills:

Programming Languages: Python, JavaScript

Web Frameworks: Django, Flask

Front-end Technologies: HTML, CSS, JavaScript, Bootstrap

Database Systems: PostgreSQL, MySQL, SQLite

Version Control: Git, GitHub

API Development: RESTful APIs

Testing and Debugging: Unit Testing, Debugging Tools

Agile Development Methodologies

Strong Problem-solving and Analytical Skills

Excellent Communication and Collaboration Abilities

Work Experience:

5 year experience

Designed and developed web applications using Django framework, ensuring high performance, scalability, and security.

Collaborated with cross-functional teams including product managers, designers, and other developers to gather requirements and deliver software solutions.

Implemented RESTful APIs for seamless integration with external systems and services.

Utilized front-end technologies such as HTML, CSS, and JavaScript to create intuitive user interfaces.

Conducted thorough testing and debugging to identify and resolve issues, ensuring software quality and reliability.

Employed version control system (Git) for code management and collaboration with team members.

Participated in Agile development processes, including sprint planning, stand-up meetings, and retrospectives.
